CAREER OBJECTIVE

Aspiring AI Engineer with expertise in machine learning, automation systems, and web development, seeking an AI Automation Internship to leverage my technical skills in developing intelligent solutions. Passionate about creating AI-powered tools that enhance user experiences while ensuring privacy, security, and efficiency.

SKILLS

- **AI & Automation:** Google Gemini AI, Speech Recognition, Natural Language Processing, Workflow Automation
- **Programming:** JavaScript, TypeScript, Python, C, C++
- **Web Development:** React, Next.js, Node.js, Electron, Tailwind CSS
- **Blockchain & Web3:** Ethereum, Solidity, IPFS (Pinata), ethers.js
- **Tools & Platforms:** Git, GitHub, n8n, Chrome Extension APIs, SQLite
- **Soft Skills:** Problem-Solving, Adaptability, Technological Awareness, Creative Thinking

PROJECTS

Deep AI Chat | [GitHub](#)

Jan 2025 - Present

- Developed a cross-platform desktop application integrating Google Gemini AI with n8n automation workflows
- Implemented dual AI engine system for intelligent task switching between natural language and automation
- Built voice capabilities using Google Speech-to-Text and Text-to-Speech technologies
- Created always-on-top, floating chat interface with modern UI using Electron framework
- Engineered automated installation and configuration processes with dependency management
- Technologies used: Node.js, Electron, Google Gemini AI, n8n, Google Cloud Speech API, SQLite

YT Amplify | [GitHub](#)

Sept 2024 - Dec 2024

- Engineered a Chrome extension that enhances YouTube's music experience
- Implemented real-time search functionality using YouTube API and Chrome Extension Manifest V3
- Developed background service workers for efficient content handling and network requests
- Created intuitive UI with custom CSS animations for seamless user experience
- Built robust storage system for user preferences and playlist management
- Technologies used: JavaScript (ES6+), HTML5, CSS3, Chrome Extension APIs, YouTube Data API

Study Marketplace | GitHub

Feb 2025 - Mar 2025

- Architected a decentralized platform for educational content using blockchain technology
- Implemented IPFS via Pinata for censorship-resistant, decentralized storage of educational materials
- Created interactive 3D thumbnails for different subject categories to enhance visual engagement
- Engineered smart contract with configurable platform fee system for sustainable operation
- Built responsive UI with modern design patterns using Next.js and Tailwind CSS
- Technologies used: Next.js, React, TypeScript, Tailwind CSS, Ethereum, IPFS (Pinata), ethers.js

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning

Heritage Institute of Technology, Kolkata

2024 - Present

SGPA: 8.47

Higher Secondary (12th)

Mahishadal Raj High School

2021 - 2023

Percentage: 84%

Secondary (10th)

Mahishadal Raj High School

2021

Percentage: 85.42%

HACKATHONS & EVENTS

- **HackQuest x EDU Chain Regional Hackathon** - Finalist (2025) Techno India University, Kolkata
- **Google Solution Challenge Regional Bootcamp** (2025) Heritage Institute of Technology, Kolkata
- **HackHeritage'24** - 3rd Place (2024) Heritage Institute of Technology, Kolkata
- **NASA Space Apps Challenge** - Participant (2024) Global Hackathon

LANGUAGES

Bengali (Native), English (Proficient), Hindi (Proficient)

PERSONAL DETAILS

Date of Birth: August 29, 2005

Address: Nandakumar, Purba Medinipur, West Bengal, 721632

Updated: April 22, 2025
